KEY: A "+" sign means the member of Congress voted PRO-CHOICE. A "-" sign means the member voted ANTI-CHOICE.								

Women should not **lose** benefits for reproductive health care because of the federal health-reform efforts. However, the Stupak-Pitts Abortion Coverage Ban amended into the House of Representatives' health reform bill does just that. It makes it virtually impossible for anyone in the new health system - called the exchange - to purchase insurance with abortion coverage - even if they buy the insurance with their own money! As a result, the Stupak-Pitts Abortion Coverage Ban would **take away health insurance benefits that millions of American women currently have.**

CALL YOUR ELECTED OFFICIALS TODAY AT THE OFFICE NUMBERS LISTED ABOVE TO TELL THEM:

"I want you to oppose efforts to strip women of insurance coverage they already have. Please represent my interests by voting to keep the federal Abortion Coverage Ban out of federal health reform legislation. I'll be tracking your votes on this important issue."
